WHO IS WITH US?

Esat Tuna Kapar

He is closely attached to music. He plays 4.5 instruments, and the most epic one amongst them is the kazoo. He gets at least five warnings per shower from Ümit Abi for singing “Anlamazdın.” Bald heads are a trauma for him because all of his roommates are bald. He gives the funniest yet deepest answers to Kemal’s daily questions. He is a true man of love. Even though he acts funny, he is deeply in an internal emotional conflict.

Note to Esad: “Why do you have so many talents?”

Note from Esad: “I’m just built different.”

Muharrem Bayır

Since his nickname is “Muammer Ağaç,” many people at school know him by that name. He stays in Tekcan Room 3 (Hakkı Bey’s favorite room). A lot of people think Muharrem looks like Anıl Mermutluoğlu from the 23’s. Sometimes, he can be careless; once, he almost threw himself in front of a minibus going at full speed. The most interesting thing about Muharrem is that he accidentally called Buket Hanım “Buket Abi.”

Note to Muharrem: “Muharrem is a generous friend who shares everything, most importantly his snacks.”

Note from Muharrem: “Did you eat my granola?!”

Duru Güvenç

Duru is known as Zuru. She might seem like a cold person, but she is actually the most talkative person. Everybody says, “Duru is like a psychologist; she is the best listener in the world.” (And I agree with them.) You can always see her playing Hay Day. She is meticulous about cleanliness, and now I will tell you a secret about her: she is an author. She has written many poems. Don’t panic; she is already in the Ahtapot Club.

Note to Duru: “Duru, you didn’t delete our homework from the Drive, right?”

Note from Duru: “No, no, I didn’t! I just deleted it from my Drive, don’t worry.”

Ayberk Tanriverdi

He is a friendly and thoughtful person. If you need help, he will definitely help you. He is a pianist and a programmer. We have an interesting piece of information about him: he has his own website (ayberktanriverdi.com), and you can check it out. He is also a member of IMC PR. He is a sportsman and coaches his own roommates (his roommates are very lucky because they have a free coach).

Note to Ayberk: "Take off the beanie."

Nursu Ada Yüksel

Representing the astrologist of our year group: Ada. She started learning about our zodiac signs even before we came to the school. Especially if you are a Gemini, be careful not to tell your zodiac sign to Ada. It is hard for her to wake up early, and she is sensitive to humming songs in the morning. She is really into math, too. Ada is also a great listener. If you have a problem, you can tell her anytime, anywhere. She will try to solve it, make you happy, and support you. She is a really friendly and compassionate person. There are many reasons to be friends with her, and we are really glad to be her friends.

Note to Ada: If overthinking was a job:

You: \$

Note from Ada: It's impossible for me to stop overthinking.

Muhammet Berat Yapıcı

Here he is: Berat the Last Airbender. If you have any questions about anything related to Avatar, Berat is the perfect person to ask. He is also really interested in physics and finds it fascinating how the laws of nature govern the universe. In his free time, he often reads about the latest discoveries in physics and tries to understand the world around him better. He is also really talented in music. He can play the oboe, piano, drums, and bağlama. How impressive!

Note from Berat: "Can I write it later?"

Lamia İnci

She has fascinating talents in drawing. She talks in her sleep, and sometimes her conversations scare her roommates, but in the morning, she doesn't remember any of them. Lamia is a very disciplined person and enjoys taking on leadership in group work. You can find her in the room watching "How I Met Your Mother." She also loves playing "The Sims!"

Note to Lamia: "Thank you for giving your children our names in The Sims."

Note from Lamia: "Just wait until you see them grow up."

Altuğ Büyükkayıkçı

He is Bertuğ's twin, and he always calls him "kardeşim." His biggest dream is to set up a football field. According to what we've heard, he loves perfume scents and uses perfume frequently. He loves playing computer games and is an amazing Cypher main. He recently shaved his head, as well.

Note to Altuğ: "Your interest in learning physics is admirable."

Note from Altuğ: "I learn physics because everyone has a specific interest."

Rabia Elvin Yaşar

Elvin is a very entertaining person. In addition to that, she has many talents; she is a professional pianist, swimmer, dancer, and actor. If you are listening to one of Yalın's songs, she will teleport near you. She can't stay silent (really). She is obsessed with perfumes, and she can't live without mascara. I've heard a rumor about her: when she wakes up in the morning, she sits quietly on her bed and listens to Arabesque music while looking out the window.

Note to Elvin: "It's Elvin, run! A Yalın song is playing."

Eren Darende

Don't have the energy to start the day? Eren is always here to tell his dad jokes and puns. You can't escape from his puns. He is always right behind you when it's about jokes. You can always find him watching anime. He watches it anywhere, anytime. He is aware of every viral meme. If there were a person that represents Gen

Alpha, it would definitely be him. Eren has a cat named "Gofret." He also has a hamster that he loves so much. You can even see his hamster in his photo.

The cats at this school are really lucky to have someone like Eren because they will always have a protector.

OLDS AMONG US

Data

The 11th of December is the birthday of Data!! You can see her around campus wearing her hat and shirts with atom models on them. As she spreads joy everywhere with her friendly attitude, we celebrate her birthday. She shares the same birthday with some notable people, one of them is Max Born, who won the Nobel Prize in 1954 for his research on quantum mechanics, and Gian Domenico Romagnosi, also a physicist who is thought to have been the one to discover the correlation between magnetism and electricity.

On this day in history:

In 220, The Han dynasty of China collapsed as Emperor Xian abdicated his throne.

In 1946, The United Nations International Children's Emergency Fund (UNICEF) was established.

In 1972, Apollo 17 landed on the moon, the last Apollo mission to land on the moon.

Happy Birthday, Data!

“Enriched by a singular event that is larger than life, I no longer have the luxury of being ordinary.” -Eugene Cernan

The 1st of December is the day that our dear friend Tuna was born!!! As we are so excited for his birthday, we are writing this text with joy and happiness. Some of the notable people who share the same birthday as him include the infamous cartel leader Pablo Escobar, Russian Field Marshal Georgy Zhukov, who is the general who captured Berlin and ended the Second World War in Europe, and finally, the fifth Caliph of the Rashidun Caliphate, Hasan (the son of Ali).

On this day in history:

In 1640, the Iberian Union between Spain and Portugal ended.

In 1988, this day was declared World AIDS Day by the UN.

In 1993, The Colombian police located Escobar in his hometown and started hunting him down.

Happy Birthday, Tuna!

“Life is full of surprises, some good, some not so good.” -Pablo Escobar

Tuna

OLDS AMONG US

Nesrin

December 9 is an important day for us because today, Nesrin was born. There are some more reasons to celebrate this day. First, the English poet John Milton was born on this date. He is a famous poet known for his epic Paradise Lost, which has left a lasting mark in history. Additionally, a famous actress, Margaret Hamilton, was born on December 9, 1902. She is best known for her role as the Wicked Witch in The Wizard of Oz. Another notable person born on this day is Kirk Douglas, the actor and filmmaker who has most likely had his name heard by all of us. He was nominated for three Oscars and starred in iconic films like The Vikings and Spartacus. Another significant aspect of this day is that the famous American newspaper The New York Times was founded on this date. All of these, along with Nesrin's birthday, make December 9 special.

Elif

The 14th of December is Elif Üzümlü's birthday; some people call her Üzümlü. This date is important for us because Elif was born.

There are other reasons to celebrate this date as well. For example, the world-famous physicist Albert Einstein, known especially for his theory of relativity, was born on this day. Additionally, this birthday is shared with another notable figure: the English mathematician Ada Lovelace, considered to be the first computer programmer in history. Now, let's mention some important events.

In 1962, Mariner 2 got to Venus and became the first successful space exploration mission to Venus.

? HOW TO LIVE PROPERLY IN THE TEVITOL DORMITORIES ?

THERE ARE MANY DIFFERENT PARTS OF LIVING IN TEVITOL: FRIENDSHIPS, CLUBS, SCHOOL, AND EVEN MORE SCHOOL! BUT ONE OF THOSE MAIN ELEMENTS IS THE MOST IMPORTANT: DORMITORIES! IF YOU ARE NOT LIVING PROPERLY IN THE DORMS, YOU WILL CAUSE SUFFERING BOTH FOR YOURSELF AND YOUR DORMMATES. THUS, FOR EVERYONE'S PEACE, WE MADE A LIST OF ADVICE JUST FOR ALL!

In Tevitöl dormitories, we think there is a ghost, who takes our stuff and hides it. Remember, there is another possibility; you have just forgotten where you left your belongings! Even though you searched for them for a month, you can only find them all of a sudden. You probably won't find it where you left it, but at least you find it. For example, I've found my fork via a photo, and I've jumped because of happiness.

I bet you think there is a monster that is quite interested in the dormitory fridge! See, in the refrigerator, you might know where your stuff is. Surprise! All of the places of your stuff will be different by the next month. I once put one of my foods closer to the fridge door. However, when I rechecked its place, it was far behind everything in the fridge. The second and worst issue is that sometimes you order something you don't really want or need and then forget about it altogether. After a while, the thing that was once food is now a smelly mess, so basically, don't leave your food to rot until the end of time.

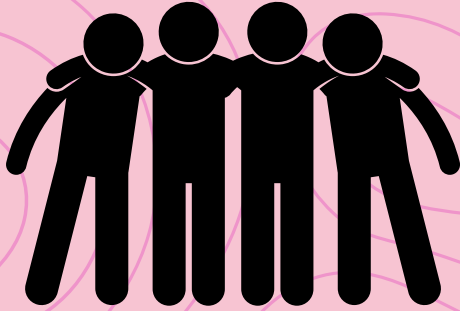

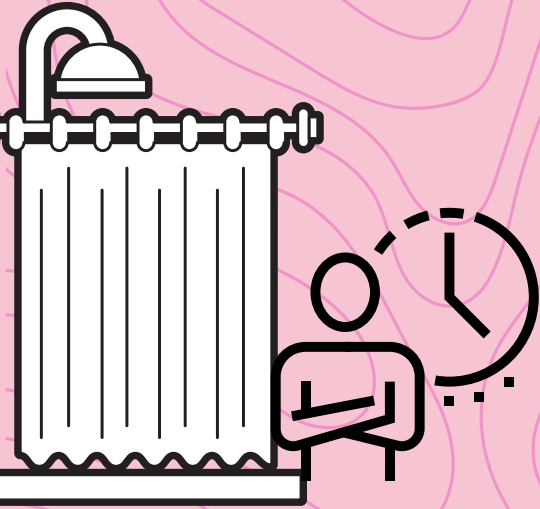

LAUNDRY

In every dormitory, there are just four machines. It's impossible for many people's laundry schedules not to coincide. You all have a story of being unable to dry your clothes when the program is finished. And those clothes are now doomed to smell, and of course, there is a decision on the amount of detergent. Ahhh nevermind! The more, the merrier.

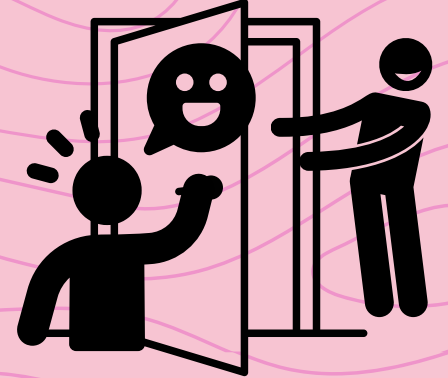

SHOWER

It is a BIG problem on special days. Everybody wants to shower, but there is such a long line, and nobody knows how much time everyone's shower will take. Therefore, I suggest you don't take a shower after attendance is taken. After each room's attendance is taken, you may see a colony from that room running to the bathroom. Don't take my suggestion lightly.

FRIENDSHIPS

See; in most schools, friendships are formed in classes or at school. Yet; I would say that in Tevitöl, a considerable amount of your friends will be from your dormitory. To also get your own slice from this, I have two main pieces of advice. First, socialize with your roommates. If you don't get along with your roommates, life in Tevitöl will be your worst nightmare. Second, go to other people's rooms if they allow you to come in. Visiting your friends who stay in the other rooms is the best since you will see people that you won't see at all if you don't visit them. Maybe they will turn out to be your best friends!

RESULTS

NOW, ADD UP THE NUMBERS NEXT TO YOUR ANSWERS,
AND SEE WHICH RANGE YOU FALL INTO:

6-10 POINTS: KEFIR AND PEAR

PERSONALITY: CALM AND NATURAL

- **YOU HAVE A SERENE PERSONALITY, DRAWN TO NATURE AND PEACEFUL SURROUNDINGS. YOU PREFER A SLOW, MEANINGFUL APPROACH TO LIFE.**

11-15 POINTS: YOGURT AND MUESLI

PERSONALITY: HEALTHY AND BALANCED

- **YOU ARE A GROUNDED AND PRACTICAL PERSON. HEALTH AND PRODUCTIVITY ARE YOUR TOP PRIORITIES, AND YOU INSPIRE OTHERS WITH YOUR POSITIVITY.**

16-20 POINTS: SANDWICH

PERSONALITY: RELIABLE AND PRACTICAL

- **YOU ARE DEPENDABLE AND ALWAYS PREPARED. YOUR CALM AND STEADY APPROACH TO PROBLEMS MAKES YOU THE ROCK IN ANY GROUP.**

21-25 POINTS: MOSAIC CAKE

PERSONALITY: SWEET AND NOSTALGIC

- **YOU VALUE SIMPLICITY AND SMALL JOYS IN LIFE. YOU'RE A KIND, CARING INDIVIDUAL WHO LOVES THE COMFORT OF TRADITIONS.**

26-30 POINTS: TEA AND DRIED FRUITS AND NUTS

PERSONALITY: ENERGETIC AND RESOURCEFUL

- **YOU'RE ALWAYS ON THE MOVE! YOUR ADAPTABILITY AND DRIVE MAKE YOU A GO-GETTER. YOU LOVE TACKLING CHALLENGES HEAD-ON.**

MAGNET PRIZE GOES TO...

Think of a person who does the same thing every single day without stopping. Someone who just can't help themselves! Does anyone like this come to mind? Then scan the QR code and vote for the "Most Addicted '29" whom these traits fit the most. The winner will receive a very special prize!

This is for someone who just can't break the habit!

(Remember, not voting is not an option!)

Welcome Back to

Flavor Lab with Chef Uraz

Festive Creamy Salmon with Herb Butter

Hello, and welcome to Flavor Lab!

This holiday season, Şef Uraz has the perfect main course for your festive table: **Creamy Salmon with Herb Butter and Holiday Spices**. It's a dish that's elegant, comforting, and full of seasonal charm.

Ingredients:

- 4 salmon fillets (skinless for a smooth finish)
- 2 tablespoons of unsalted butter (softened)
- 1 garlic clove (minced)
- 1 teaspoon of fresh dill or parsley (chopped)
- Zest of 1 lemon (for brightness)
- 1 cup of heavy cream
- 1/2 teaspoon of nutmeg (adds a holiday touch!)
- 1/2 teaspoon of cinnamon (optional, for a festival twist!)
- Salt and pepper, to taste
- Fresh rosemary or thyme sprigs (for garnish)

Steps:

Prepare the Herb Butter:

- Mix the softened butter with garlic, dill, lemon zest, and a pinch of salt. Set aside to use as a finishing touch.

Sear the Salmon:

- Season the salmon fillets with salt and pepper. Heat a non-stick skillet over medium heat and sear the salmon for 3-4 minutes on each side until golden. Remove and set aside.
- Make the Creamy Sauce:
 - In the same skillet, pour the heavy cream and add the nutmeg and cinnamon. Stir gently and let it simmer for 2-3 minutes until slightly thickened.
- Combine and Finish:
 - Return the salmon to the skillet and spoon the creamy sauce over the fillets. Let it cook for 2 more minutes to blend the flavors.

Serve Festively:

- Place the salmon on a serving plate. Add a dollop of herb butter on top of each fillet. Garnish with fresh rosemary or thyme sprigs for a holiday feel.
- Pair this festive salmon dish with roasted vegetables, mashed potatoes, or a vibrant winter salad. **It's a dish that shines as bright as the holiday lights!**

Happy
Cooking

Nanika is a fish who was brought to the middle of the safe continent by getting attracted by the smell of a special fruit called Neteru. This fruit was brought to the safe continent by an unknown force, and it is known as the last of its kind.

Nanika finds the fruit in the middle of the safe continent, gives life to the kernel of this fruit and creates human beings. The Beta feeds on the regenerating fruit while the people of this country live with the benefits that it grants. This fish is known to be a mythical creature and a god. Because Nanika is the one who brings life and the one who strengthens them, they decide to call the country Nikania, as it stands robustly in the middle of the great oceans, which have yet to be discovered.

To be continued...

COMIC STRIP

PEPSİ

A newbie to TEVİTÖL! But she is from outside of the school, so she isn't TEVİTÖLized yet. That's why sometimes she can't really get along with local cats. We don't know her a lot yet, but let's be patient.

- Silent
- Curious
- ???

ŞAKİR

Selektör, Şaşı, Buğday, Zekeriya... Unexpectedly from her names, she is a girl! She is hated by none, loved by tons. People know her by her squint eyes. Even though she has hard times with her sight, she has TEVİTÖL family to cover her back.

- Docile
- Friendly
- Calming attitude

MAKBULE

The sharpest tool in the shed! "Wise Cat" of TEVİTÖL. She spends her time at the library, as well as sneaking into the classrooms. Other cats usually ask her questions, however they are afraid of her impatient behavior.

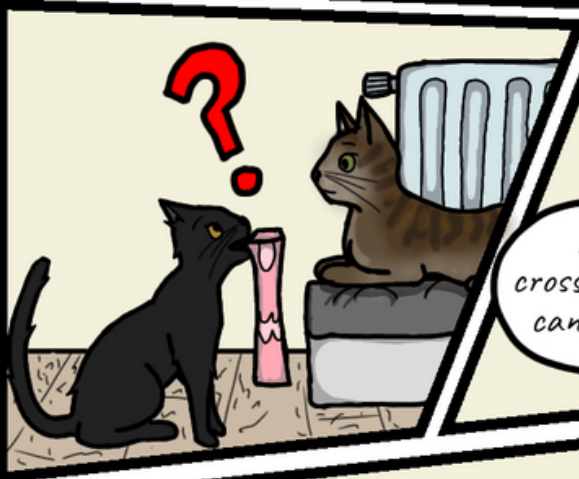

- Intelligent
- Moody
- Can use human inventions

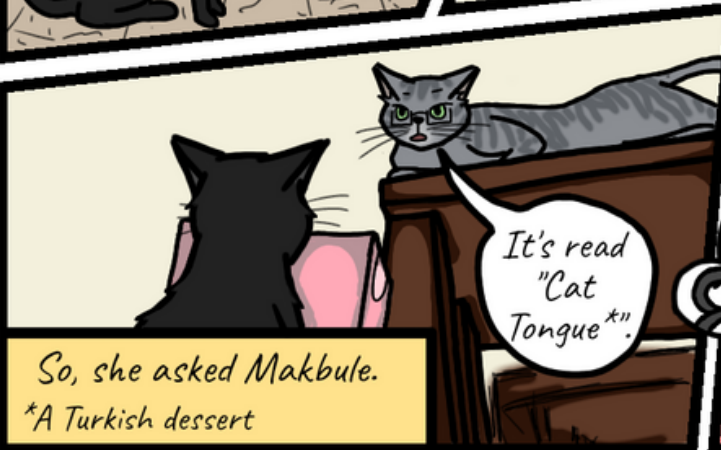

Pepsi is not Tevitölized, yet doesn't know the language of Tevitöl cats. One day, she was playing alone outside and found a box.

However, she couldn't read either. She had to ask someone else

I'm cross-eyed. I can't read!

It's read "Cat Tongue*"

So, she asked Makbule.

*A Turkish dessert
