Who Is With Us

Ronya

She was a silent girl at first but after some time, she became a talkative person. Her roommate says "She is the source of joy to our room." Also she is a very clever girl. She is obsessed with music, don't panic, she is in the GSP Music Department...

She has good humor. Sometimes she is serious but suddenly she makes a joke and she amazes you.

And A Rumor About Her: Sometimes in the evening she gets up and dances with a sudden burst of energy.

A NOTE TO RONYA: "STOP SINGING "SYMPHONY" SONG."

Yigit Acar

He is obsessed with his hair and takes great care of it. He is a kind and thoughtful person but sometimes he can be annoying. Many people think he is the best in his year group at football, but Yigit is quite humble about it. However, he claims in every foosball match that he is the best football player in his year group. He is very understanding towards his friends. You can usually find him in Yanki.

A note to Yigit: Your hair is so beautiful but it can be more beautiful if you cut your hair.

A note from Yigit: Bro, I will never shave my hair completely.

Demir Efe Akbas

He is the most relaxing person you can ever see. He gets up late but does not get late for school. How does it happen? We don't know either but it works.

He really speaks without thinking and he is an honest person, but he is a bit messy. His friends say that he is a really funny person and I agree with them too...

He likes football. He plays guitar. He is a really talkative person. Also I think his favorite sentence is "LESSON FINISH". He likes saying that at the finish of the lesson

A NOTE TO DEMIR EFE: "I love you so much, I admire how you get up at 7:44 and don't be late."

Who Is With Us

Ekin

Ekin loves literature and is a true literature person. When the WhatsApp group of the 29s was first created, she was one of the most active contributors. She is incredibly inept at cooking. If she tries to make a dish, it will get ruined. She is so cute and funny. She has a great sense of humor and is a social person. She claims to be from Adana. She speaks without thinking. Ekin sleeps like there is no tomorrow. She is a very approachable and friendly person (especially with Nesrin). She has way too many mood swings. She constantly asks for noodles.

A note to Ekin: Did you stay too long under Adana's sunshine?

A note from Ekin: You know you are my only sunshine.

Data

Data, the walking "Baris Ozcan" archive with a hat, is here! It is hard to write about her because she is into a lot of things and there are so many ways of describing her. For example, as I mentioned, one of the most important things about her is her hat. You cannot see her without her hat. Her aim is to discover something about physics and teach it to people. About her talents, she can solve 3 different types of Rubik's cube! And the Marmaray in her photo was actually moving, but she managed to take a picture this beautiful. She also is a big fan of Adam Fawer. Improbable is her favorite book. And don't forget to check her WhatsApp status!

A note from the writer: For Data's quiz, you may want to check Baris Ozcan's videos. Believe me, they will help you.

A note from Data: Please respond to me when I say "good morning" in the refectory.

Alperen

He gets along well with little kids. He supports Besiktas. He is a Formula 1 fan. His love for soda has made him popular among his year group. He loves Pideli Kofte (He is from Bursa). He's a cheerful and respectful person to everyone around. Yanki is his favorite place, and even if the temperature is -2 degrees or it's 10:28 p.m., he hangs out at Yanki. At the dorm, he disappears from 10:30 p.m. to 12:00 a.m., and no one knows what he does during that time. If you can't finish your meal, don't worry because Alperen will eat it.

A note to Alperen: No Alperen, I don't have soda.

A note from Alperen: Then, I will drink you.

Who Is With Us

Batu

He is coming. Who, you're going to ask. Our metal boy, Batu is coming. There is a reason why I called him a metal boy. He loves metal music a lot, as well as cars. And when I say "a lot", I mean it. These are what makes Batu, "Batu". Other than these, he likes and is actually good at basketball. He is in the team. Not just his team, whenever there is a "Fenerbahce" match, he knows all about the match. Especially EuroLeague matches. We can say that he never misses a single match. He is a really talkative person too. He really, really likes to talk. He is the best person if you want to talk to someone. Don't worry, you will not get bored anymore.

A note from Batu: <https://ayberktanriverdi.com/> <3

Duru Toprak

It is time to introduce one of the kindest, most reliable and most thoughtful people: Duru. Even in your bad days, seeing her makes you feel better. She would also try to help you. She is really great in fine arts. You'd be so impressed if you saw one of her paintings. They are gorgeous. Not just painting, music either. She likes listening to music as well as singing with her beautiful voice. She's into biology too. If you have questions about genes, DNA etc. you can ask her, she will definitely explain it to you. We believe that although having this much interests and talents, she can do whatever she wants to.

Elif Yilmazdemir

"Elif is a sweet and energetic girl. Since the moment we met, two things caught our attention: 1- Her never-ending energy This trait is the reason she's a gym bro. 2- Her addiction to Brawl Stars If you're looking for a game partner in Brawl Stars, you'll undoubtedly find Elif. Moreover, Elif is talented in many areas and excels at handicrafts! Anonymous Notes to Elif: 'Press bro press' 'Christmas ornament' 'Roberto Carlos's leg muscle'"

Chess Master Kerem

Kerem is a true gentleman, exuding an air of sophistication and wisdom. His favorite colors are blue, white, red, and black, which reflect his multifaceted personality. Among his many interests, chess holds a special place in his heart, and his friends often highlight his deep passion for the game. Kerem is known for his calm, polite, and rational demeanor, making him a standout personality. His admiration for the character Don Vito Corleone further underscores his taste for strategic thinking and leadership qualities.

OLDS AMONG US

December 26 is an important day for us with it being the birthday of Elif Uluğ.

There are some other reasons that December 26 is a significant day.

First of all, Şener Şen's father Ali Şen, one of the most important actors of the Yeşilçam period in Turkish cinema history, was born on this day. Besides on this date, Jamaican athlete Yohan Blake, a training and teammate of Usain Bolt, was born on December 26, 1989. He won a total of 6 gold and 3 silver medals in many Olympic and world championships and came second to Usain Bolt, who broke the Olympic record at the 2012 London Olympics. There are some significant events that happened in that day as well.

Marie Curie, the first woman to win the Nobel Prize in Physics, and her husband Pierre Curie, a physicist, announced the discovery of the element radium on December 26, 1898. This work led to her second Nobel Prize. This scientific development is one of the discoveries that changed world history, such as the cure for cancer.

Another important event will be our school's German Night, which will take place this year on December 26.

Apart from that, it's Elif Uluğ's birthday and we are celebrating her.
Happy birthday Elif!!!

How to Get Your Work Done in 5-Minute Breaks

Our school is enormous, with many buildings spread out like gas molecules in a large container. The gym, in particular, feels like it's on another planet. We often need to switch buildings within 5 minutes—or sometimes even less. This leaves us no time to enjoy simple pleasures, like petting the campus cats, dear administrators.

1 Moving Between Buildings

We sometimes feel like our dear administrators expect us to discover teleportation. Why? Because we barely have enough time to catch up between lessons! Despite our block schedules and the 10-hour lessons we mentioned in our first issue, our breaks are too short to truly rest. In this issue, we've compiled the main reasons why we complain about these short breaks.

Meeting Basic Needs 2

Using the restroom or grabbing a drink from the cafeteria is a challenge at Tevitol. To save time and energy, always carry a water bottle with you. Prioritize your needs: for instance, if going to the restroom isn't urgent, decide whether to check your phone or take care of more pressing necessities. Neglecting these needs will leave you feeling unimaginably tired later.

Homework

We, as Tevitol students, are champions of procrastination. However, deep down, we all know we shouldn't leave things to the last possible moment. Here's some advice for dealing with unfinished homework:

Don't try to finish homework during the 5-minute breaks—it's practically impossible.

If you're behind, focus on completing homework after 10:30 PM. At that point, there's almost nothing else to do anyway.

If you still haven't finished, wake up earlier the next morning to get it done.

If you choose to sleep over homework, sacrifice breakfast for a day to catch up.

If you're still not done, use your lunch break wisely: eat quickly and spend the remaining time (around 30 minutes) working. If all of those methods fail—farewell.

TRIVIA QUIZ

SEASONS VERS.

1st Question: What is your favorite item of clothing?

A(1 POINT): Flip-Flop

B(2 POINT): Raincoat

C(3 POINT): Woolen Hat

D(4 POINT): Hiking Boots

2nd Question: What is your favorite dish?

A(1 POINT): Cheese and Watermelon

B(2 POINT): Spinach Rolls With Feta Filling

C(3 POINT): Bean Stew

D(4 POINT): Artichoke

3rd Question: What would you do if you got a failing grade?

A(1 POINT): I wouldn't care much about it.

B(2 POINT): I would assess myself

C(3 POINT): I would be really depressed.

D(4 POINTS): I would tell a friend.

4th Question: How would you respond to your friend requesting you to lend your computer him for a night?

A(1 POINT): Yeah sure.

B(2 POINT): Give me a second.

C(3 POINT): No, something could happen.

D(4 POINT): Okay, but bring it tomorrow please.

5th Question: Your friend recently divorced and he is saddened. What would you say to him/her?

A(1 POINT): Don't worry, there's plenty of fish in the sea.

B(2 POINT): Why did s/he break up with you?

C(3 POINT): This is the toughest thing on earth.

D(4 POINT): I am sure you will feel better soon.

6th Question: There is a party outside, what would you do?

A(1 POINT): Join the party with no hesitation.

B(2 POINT): I would scrutinize to see who is involved.

C(3 POINT): I would stay at home and enjoy my book.

D(4 POINT): I would call my friends to accompany me.

Now, add all your points together to see your season!

Summer: 6-9 POINTS Fall: 12-15 POINTS Winter: 16-19 POINTS Spring: 20-24 POINTS

Summer: You are an energetic person. You usually like adventures and being around other people. You don't really make a big deal or stress about anything and always believe there is a way to fix every problem. You are usually happy, and that's what matters!

Fall: You are a skeptical person. You like to know answers to everything and don't like surprises. You care about yourself and are always aware of the world around yourself. Many people like to ask you for your help, and this shows your importance in everyone's world.

Winter: You are an introvert. You always look at the empty half of the glass and usually don't have much hope for desperate situations. You also like exaggerating stuff and can't really comfort people around you. Nevertheless, your inner world is big enough for yourself and you don't bother the people around you.

Spring: You are optimistic. You believe in yourself and have the power to change, adapt or have an impact on hard situations. You like to be with your friends and family. You also care about your life and your impact on society. This makes you a really friendly and smart person, nobody holds any grudges for you.

Welcome to Flavor Lab with Şef Uraz; The Magic of Gingerbread Houses!

HELLO, HOLIDAY BAKERS!

Welcome to Flavor Lab, where we combine deliciousness with creativity.

This festive season, *let's build something magical; a Gingerbread House!* It's the perfect mix of baking fun and edible art. Whether you're decorating solo or with loved ones, this sweet activity will bring joy to your holiday celebrations. Let's roll up our sleeves and make your dream house come to life—candy roof and all!

Gingerbread Ingredients:

- 3 cups all-purpose flour
- 1 tsp baking soda
- 2 tsp ground ginger
- 1 tsp cinnamon
- 3/4 cup unsalted butter
- 3/4 cup brown sugar
- 1/2 cup molasses
- 1 egg

Royal Icing (The Glue):

- 2 egg whites
- 3 cups powdered sugar

Steps to Build Your House:

1. ***Make the Dough*:** Mix the dry ingredients, then add butter, sugar, molasses, and egg. Knead into a smooth dough, chill for 1 hour.
2. ***Bake the Pieces*:** Roll out the dough, cut into house shapes (walls, roof), and bake at 180°C for 12-15 minutes. Cool completely.
3. ***Assemble the House*:** Use royal icing to glue the pieces together. Let it dry for stability.
4. ***Decorate*:** Add your favorite candies—gumdrops, candy canes, and sprinkles. Get creative!

Your gingerbread house isn't just a treat—it's a centerpiece for holiday cheer. Enjoy the magic of the season with Chef Uraz!

As the centuries pass by, they notice that they're running out of resources, and the country is trying to find ways to explore new continents, although the ocean waves are highly aggressive and destructive. Unlike the people, The Beta was able to survive without hunger problems. It seems to feed on the kernels of the tree, which grants life energy to it. They feel jealous, which leads to civil war, and these events eventually catch The Beta's attention. It doesn't seem to care about the well-being of its people. So, Betatopians, following a spiteful way to regain their peace and sources, tend to steal the kernels and hide them.

To be continued...

COMICS STRIP

LİME

Here comes another young lady! She loves hopping around with her never ending energy. It is impossible to guess what she will do next. Be careful, she has a twin sister, so it is easy to mix up those two. They are identical except a detail in their noses.

- Energized
- Unpredictable
- Agile

ŞAKİR

Selektör, Şaşı, Buğday, Zekeriya... Unexpectedly from her names, she is a girl! She is hated by none, loved by tons. People know her by her squint eyes. Even though she has hard times with her sight, she has TEVİTÖL family to cover her back.

- Docile
- Friendly
- Calming attitude

PEPSİ

A newbie to TEVİTÖL! But she is from outside of the school, so she isn't TEVİTÖLized yet. That's why sometimes she can't really get along with local cats. We don't know her a lot yet, but let's be patient.

- Silent
- Curious
- ???
