WHO IS WITH US?

Korel Kılıçlar

He is integrated with the drums. He uses his drumsticks everywhere, even in his room! He stays in Room 6 in Sedefoğlu, which is the scariest room in Sedefoğlu. Korel's favorite activity in his room is not allowing his roommates to sleep. Korel loves throwing oranges at his friends. His favorite music group is Scorpions. He is also a big fan of Tool. Korel loves playing video games. He video calls Halid every study time.

A note to Korel: Korel, come to your senses, you are not a hog rider.

A note from Korel: HOOOOGG RIDEAAAEERRRR!!

Kemal Çiğdem

He is a supportive friend. He is the crush of many girls. Some girls call him cute or even their soulmates. He used to ask daily questions every day in the dormitory before sleep hour. He doesn't do this tradition daily but still does it occasionally. His acting skills are incredible, but he has not been in any plays but Talent Night. Surprisingly, he isn't even in the drama club. We couldn't believe that such a talent had not been used yet.

A note to Kemal: Kemal, keep the daily questions!!!

A note from Kemal: As long as I am well, I will continue the daily questions.

Peri Naz Dalmış

Peri has a lot of hobbies and talents. She has a talent for volleyball. But of course, volleyball is not enough for her. She's also attending dance rehearsals. As well as that, she has a kind and thoughtful personality. She also has leadership qualities, but this doesn't change her kindness. She always cares about people. She's also known for being good at math. Before exams, her help is important to us. Every night, she chooses what to wear the next day, and it is really important for her. Her biggest enemy is alarms. Every morning, Peri battles with her alarm. Her roommates help her beat it. And eventually, they are all awake.

A note to Peri: Don't hurry, you're not going to be late!

A note from Peri: I haven't chosen what to wear!!!

Ece Lina Cihan

And now, it's Lina's turn to be introduced. If I needed to explain her with one word, it would be characters. She creates a lot of characters as well as universes. When I say a lot, I mean "a lot". Every time I talk to her about something, she says "I have a character who has that!". She created the whole world again. She makes her characters visible to the outer world with her drawing skills. They are gorgeous. She's also into DnD. She is now a part of a DnD campaign (And of course, she drew her DnD character too.). Lina has a fabulous English accent.

She's one of our year group's living translators. Not just English, she learns Japanese too, and has decent knowledge of the language. She is also obsessed with psychology. It's really fun to talk to her because of all these traits she has.

A note to Lina: STOP GIVING YOUR CHARACTERS TRAUMA!

A note from Lina: IT'S CHARACTER DEVELOPMENT!!!

Kerim Kayra Şatıroğlu

He is a real sportsman. He is good at tennis and he loves sailing. Also, he was 15th in Turkey at a sailing competition! His friends say he is very energetic in his dormitory, but he doesn't like light anymore (interesting). He is a talkative person. He loves speaking and he loves asking silly questions. He has good humor if you speak with him. I am sure you'll enjoy that. His friends say he looks like Jonas from The Giver. And we heard a rumor about him: he has 3000 hours at FIFA (Go get some fresh air and touch the grass!!).

A note to Kerim: "Don't sleep at 11 pm anymoreee!!"

Ece Duru Tutaş

When someone says "LORD OF THE RINGS", everybody thinks of Ece Duru. If you have a question about The Lord of the Rings, you can ask her (We are sure that she can talk about The Lord of the Rings for hours). She is really fond of bracelets (She wears nearly ten bracelets at the same time.

Wow, that's crazy!). You can see her everywhere at school with her headphones. She has a special and unique style. She has a twin, and they love each other very much. She is good at D&D and I don't recommend playing it with her because I'm sure she'll beat you. And lastly, a rumor about her: she reads "Gravity Falls" every year over and over.

A note to Ece Duru: "She is the most epic knight you can ever see."

Elif Uluğ

That's Elif Uluğ. She is known as the "fun fact giver" in the class because she always tells you the strangest facts that you haven't known about. She enjoys making jokes, and she is always cheerful. She participates in school clubs, she takes on volunteer tasks to stay involved. She likes coding and is rumored by her study-hour deskmates to be working on secret Python projects. Harry Potter is one of her favorite movies, and her favorite house is Slytherin, reflected in her Slytherin-themed school bag. She enjoys playing chess and, unlike many, loves eating okra. Although she dislikes water, she prefers Beypazarı mineral water instead.

Derviş Poyraz Ceylan

This is Derviş. He is often called “Karavezir” due to his role in the Talent Night. He is friendly and kind, he never hesitates to help others and remains calm and patient under stress. He is a real expert at computers: he enjoys coding, fixing errors, and playing video games (particularly anime games). In the games, he is known by his iconic name, DPC (Derviş Poyraz Ceylan). At the beginning of the school year, he gained attention for creating his own 2024 October Republic Ball partner using some cardboard boxes. He loves barbecue chicken so much, and he loves everything about computers (except one thing: “Syntax Error”).

Defne Yılmaz

And now, here's our best dancer among prep students, Defne Yılmaz!!! We think that everyone knows her performance from German Night'24. Needless to say, she was excellent. But, dancing is not her only skill related to music. She has a really beautiful voice. She rarely sings, but when she does, she impresses everyone in the room. We think that she is wasting her skills by not singing in concerts. Wait, there is more, her music skills are endless! She also plays violin for 7 years, she has a great experience. She is also interested in horseback riding. She has a 2 years-experience of riding horses. She is a very kind and sweet person, we think that everyone should meet her!!!!

Deren Yaylı

(In weblish, “GOAT” means “Greatest Of All Time”.) Last guest of this Who Is With Us is the GOAT, Deren Yaylı. He is the true meaning of a GOAT. He plays clarinet very well, his idol is Hüsnü Şenlendirici! It has been only 4 months since he started playing clarinet but he has a special talent on it, so improved himself very well. He is also the GOAT of MUN's. He is a great delegate, he dominates all MUN conferences. He is clever at chemistry, he has the most chemistry knowledge among Prep students. Besides his impressive talents, he is a nice person. He has a sweet heart, he always acts intimately. The true GOAT, Deren Yaylı.

OLDS AMONG US

RONYA

24th of january

The 24th of January is an important day for us with it being the birthday of Ronya. There are some other reasons that the 24th of January is a significant day.

January 24th was an important date in the world of technology when two major milestones took place. In 1984, the Macintosh computer was introduced, which completely changed the use of personal computing and ushered in a new era. In 2009, Jan Koum founded WhatsApp, creating a platform that made messaging much faster and easier. These developments played an important role in shaping today's technology.

It is also the birthday of Ed Helms, the talented comedian and actor best known for his role as Andy Bernard in The Office and Stu Price in The Hangover series. Helms, who also draws attention with his acting, has also worked as a voice actor in successful productions such as The Lorax animation.

As we celebrate Ronya's special day, let's not forget the moments that shaped the world and history around us.

Happy birthday, Ronya!

SUEDA

3th of february

The 3rd of February is an important day for us with it being the birthday of Sueda. There are some other reasons that February 3rd is a significant day.

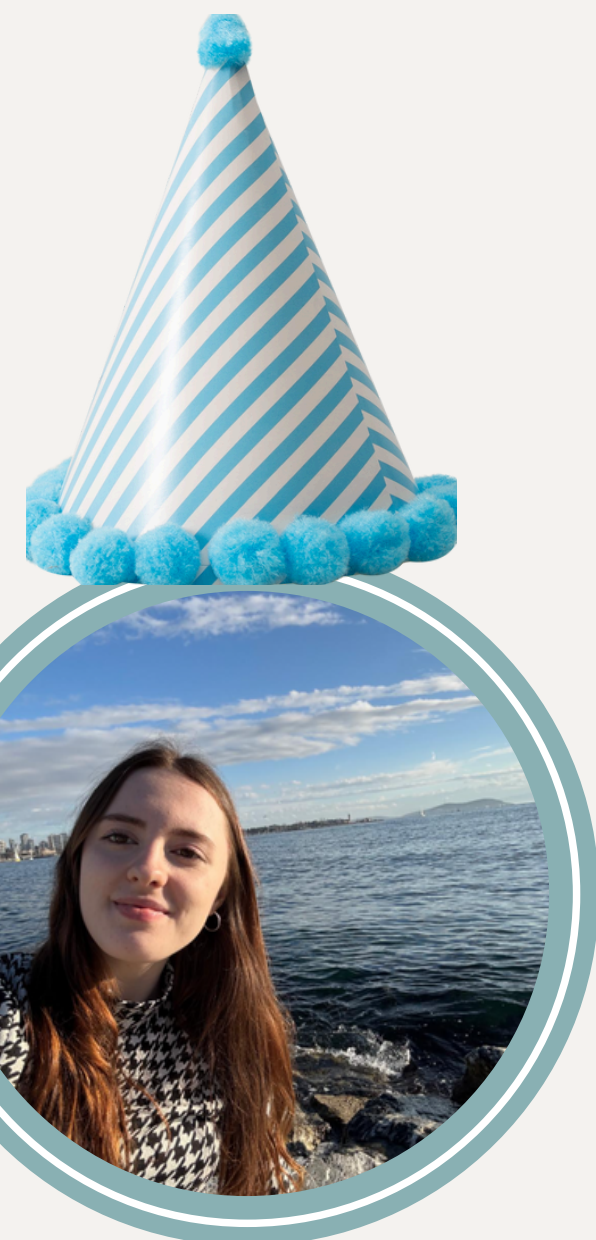

In 1451, Ottoman Sultan Mehmed II (Fatih Sultan Mehmet) ascended to the throne for the second time, marking a significant turning point in the history of the Ottoman Empire.

In 1960, the first paper money was introduced in the United States. This was an important step in the development of the financial system and had a significant impact on the transformation of economic structures. February 3rd is the birthday of Australian actress Isla Fisher. Known for films such as Wedding Crashers and Now You See Me, Fisher draws attention with her successful performances in comedy and drama. In addition to her acting career, she is also an author and writes children's books. Fisher is known as a versatile artist who has proven herself both in the world of cinema and literature with her talents.

Happy Birthday, Sueda!

OLDS AMONG US

11th of february

ELVIN

The 11th of February is an important day for us with it being the birthday of Elvin. There are several other reasons that the 11th of February is a significant day. Robert Fulton started an important innovation in maritime transportation by patenting the steamship. This development accelerated trade by sea and led to major changes in the maritime industry. Fulton's invention contributed to the strengthening of economic relations around the world by making maritime transportation more efficient.

February 11th is the birthday of Jennifer Aniston, famous for her role as Rachel Green in the beloved TV show Friends. Over the years, Aniston has starred in many successful movies such as Marley & Me and The Break-Up. Her talent in both comedy and drama has made her one of Hollywood's most popular and respected actresses.

On the same day, we also celebrate the birthday of Thomas Edison, one of the most important inventors in history. Known for creating the light bulb, Edison's inventions changed the way we live. He also invented the phonograph and made important contributions to the film industry. Edison's work has had a lasting impact on technology and everyday life, shaping many of the tools and devices we use today.

Happy Birthday, Elvin!

15th of february

ECE DURU

The 15th of February is an important day for us with it being the birthday of Ece Duru. There are some other reasons that the 15th of February is a significant day.

In 399 BC, the philosopher Socrates was sentenced to death, an event that deeply impacted both philosophical thought and the justice system of Ancient Greece. Socrates' trial and his approach to ethics, questioning authority and societal norms, have had a lasting influence on Western philosophy.

February 15th is also the birthday of Galileo Galilei, the Italian scientist, astronomer, and physicist whose work laid the foundations for modern science. He is famous for developing the telescope and making groundbreaking astronomical observations that revolutionized our understanding of the universe. Galileo's contributions to science continue to shape the way we explore the world around us.

On the same day, we also mark the founding of YouTube in 2005. As one of the most popular video-sharing platforms, YouTube has transformed the way we consume media, creating a new digital culture where anyone can share content with a global audience. Its impact on media, communication, and entertainment has been immense, shaping the future of digital interaction.

Happy Birthday, Ece Duru!

HOW TO STAY ALIVE ON AN EXAM WEEK IN TEVITÖL?

At this point, we are all aware of the downsides of this school and its advantages. But in every school, there is a thing which determines your doom... called exams! As TEVITÖL students, we always hassle with homework, but exams are a thing that you can only take once, so you should be careful while taking them! There are some critical elements that you must consider.

SLEEP

I think as TEVITÖL students, we sleep too much or too little.

For example, today I was in shock to see that all of my roommates were sleeping at 40 past 7! I was the one to wake them up, which is unusual, to say the least. See on exam weeks, staying awake till 01.00 is allowed. But if you have to sleep for 12 hours to feel awake throughout the day, like me, I advise you from the deepest part of my heart to sleep.

However, if you feel better within 4 hours, then sleep later and wake up earlier. I think that 6 hours of sleep is such a weird amount of time that it makes you feel sleepy throughout the whole day. If you are trying to memorize a topic, read it right after you wake up and right before you sleep.

LEAVE EVERYTHING TO THE LAST POSSIBLE MOMENT?

If you are an ideal TEVİTÖL student, you will do all your work at the last minute. Not just homework or tasks, this includes exams. Which TEVİTÖL student starts to work for exams 1 week early? Absolutely no one! But this is not good for you, my dear. Why do you force yourself to work late at night? What will you do if the dorm teacher makes a “baskın”? Yeah, we think so. So, don’t leave everything to the last minute.

IN SCHOOL

The lesson times before the exams are the saviours of us. When you learn a topic in an exam and you don’t even know its name, it’s the best time to work. And if you habitually postpone everything, I wonder what you will do without these hours? Let us respect these hours and give thanks. But we are not talking about the hours after the exam. Our computers are making a lot of noise.

Elephant:

You are strong and dependable, with a deep sense of loyalty and care. Your wisdom and memory make you a guiding force in your community, always there to support others.

MAGNET GOES TO

Get ready for another exciting prize announcement! This time, it's for the Most Forgetful of '29! You know who we're talking about—the one who always seems to have their head in the clouds, forgets their responsibilities, and could definitely use a steady dose of B12 pills. Whether they lose track of important dates or get distracted by something shiny every time, we all know someone who fits the bill. But hey, if you think you might be the winner, take note—don't forget to cast your vote (or you might miss out on the fun)! Let's see who takes home the title this year!
