Who is With Us?

Elif Asya Karahisar

She loves dancing and she is very talented at it. She often sings songs in her room. She enjoys drinking green tea. Asya is a very social and outgoing person. Her friends say she reminds them of a fox!! She doesn't prefer to go out in her teddy bear pyjamas. She is also a very hyperactive person and she can not stand without moving.

A note to Asya: Come to class 4 or 9 ;)

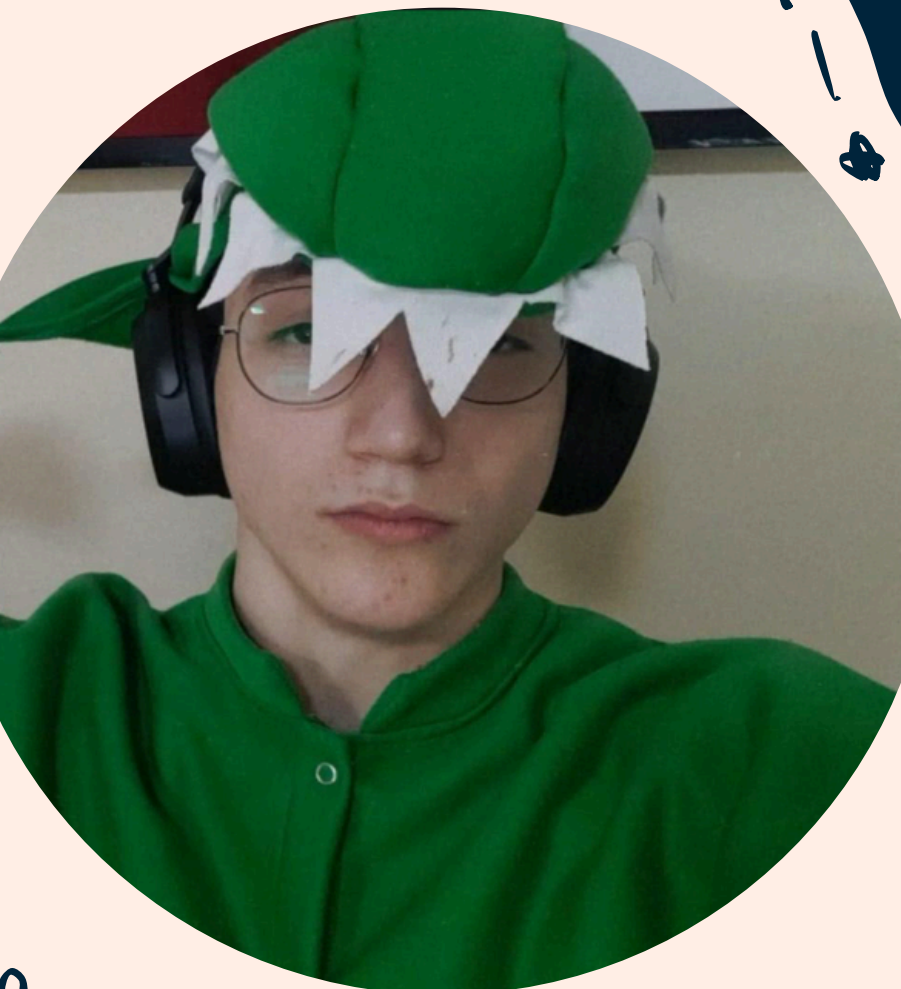

Gökçen İrem Karagöz

Gökçen is a person who is one of the most active students from our year group. You can find her in every school activity. She also has great leadership skills. She was a really great director while preparing the "Prep Night". She knows how to keep things under control and solve any problem she faces. She is an athletic person, too. She plays volleyball really well and she is a quite fast person. She can adapt to any sport she tries. She can do anything she wants to.

Mehmet Yaman Ay

He has knowledge about almost everything. He has a curious mind and loves learning new things. Yaman is also very athletic. He loves swimming and being in the sea!!! Yaman has a funny and cheerful personality. He can easily start a conversation on any topic to everyone. Even if you're talking about the most random things, he always has something interesting to say. He is an extremely pensive guy, but he does the things that he wants to do very well!

A note to Yaman: Yaman.

Mustafa Mert Yazıcı

Mert is one of our musicians. His main branch is viola, but you can also find him while playing electric guitar. He mostly spends his time with the IT team. Other than that, he also loves games. He downloads any game he wants to. He is mostly a unique person. He also loves science. Biology, Physics, Chemistry... He knows about them all and he wants to plan his future on Biology. He also wants to go to Germany. He has great future plans.

Uraz Karataş

Meet Uraz. He is living in Kocaeli. He is sincere and honest with his friends. That's why everyone loves him. He also likes making funny jokes and making his friends laugh. Besides his social life, he has lots of hobbies and skills. He is a certified chef and cooks delicious meals. He is very sporty. He does regular exercise. He is in three sports clubs, and all of them, he continues to achieve success. He is interested in maths and he has joined plenty of maths competitions. He is a hardworking student. When he focuses on one thing, he doesn't get distracted easily. His favourite food is Salmon. He is known for his contribution to the vocabulary of students in Tevitöl with words like "Yav Hii" and "Feci."

A note to Uraz: What is rectangle la brother?

A note from Uraz: I love Mert Kahraman.

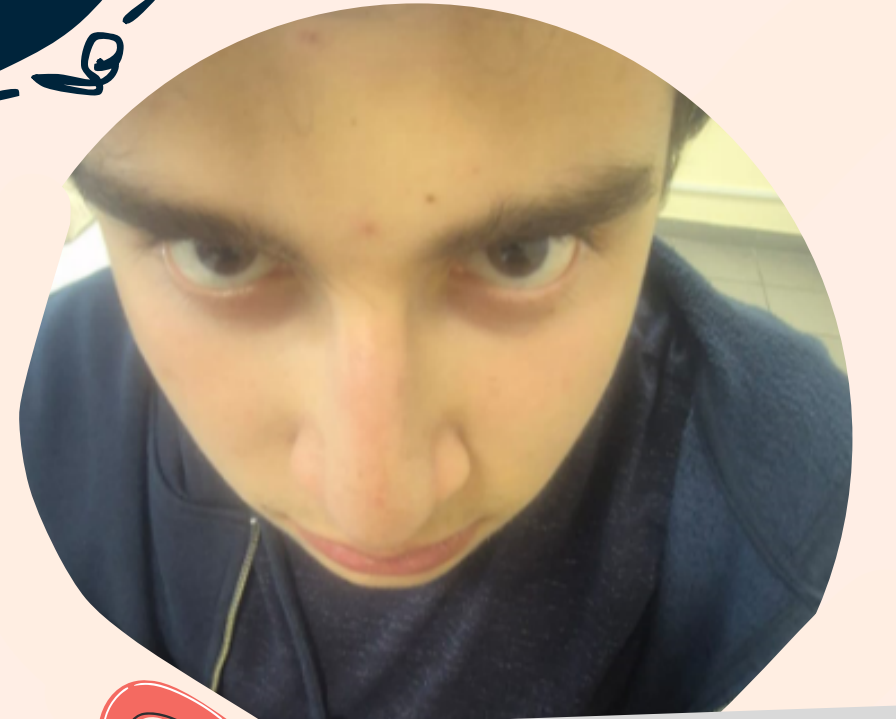

Ali Baran Keskin

This is Ali Baran. He is from Antep. He is one of a kind. He is very friendly and helpful. He is an extrovert. He likes to meet new people, and he gets on well with everyone. He is very intellectual. He takes part in lots of school clubs. He likes acting and making music. Because he is from Antep, he has the appetite of a gourmet. He knows where to eat the best Baklava. If you come to Antep, he will be the guide on your taste tour. Baran is a real video game fan. He knows best and cheap games. He loves shopping. If he didn't buy anything from Amazon, it would go bankrupt. Most of the time, he likes trying new things. Baran's life motto is different. For him, you should struggle in life as long as you enjoy.

A note to Baran: Baran, don't attack me. I am innocent.

A note from Baran: Get out of my bed.

OLDS AMONG US

23 march-Ebrar Ela

The 23rd of March is an important day for us with it being the birthday of Ebrar Ela

There are some other reasons that the 23rd of March is a significant day.

On March 23, 1910, Akira Kurosawa was born in Japan.

Kurosawa was one of the most influential filmmakers in the world.

He created masterpieces such as "Seven Samurai" and "Rashomon."

His works shaped Japanese cinema and also they had a profound

impact on global filmmaking. Kurosawa's storytelling techniques

and innovative use of cinematography continue to inspire directors even today.

In 1903, the Wright Brothers (Orville and Wilbur Wright) applied for a patent for their first fixed-wing aircraft. This marked the beginning of a new era in human

transportation. The Wright brothers' successful flight in 1903 is

often regarded as the first powered, controlled flight in

history. This success opened the door to modern

aviation and revolutionizing the way we travel.

Also in 1882, Amalie Emmy Noether was born in Germany

. A brilliant mathematician, Noether is best known for Noether's

Theorem, which has had a profound effect on both physics

and mathematics. Her work on the relationship between symmetry

and conservation laws continues to be a cornerstone in theoretical

physics, particularly in the fields of quantum mechanics and general

relativity. Noether's contributions to mathematics and science have

earned her a place among the most influential mathematicians of all time

Happy
Birthday, Ebrar Ela!

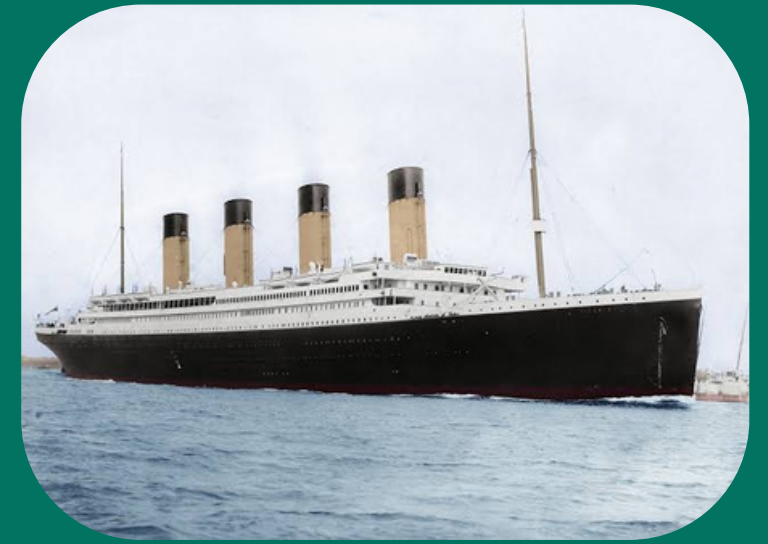

15 April-Öykü

The 15th of April is an important day for us with it being the birthday of Öykü. There are some other reasons that the 15th of April is a significant day.

On April 15, 1912, one of the largest and most luxurious passenger ships of its time, the RMS Titanic, collided with an iceberg in the North Atlantic Ocean and sank. The disaster resulted in the loss of more than 1,500 passengers and crew members and is recorded as one of the deadliest maritime accidents in history. This event led to significant changes in maritime safety laws and improvements in safety protocols. The tragic story of the Titanic inspired the famous 1997 film by James Cameron, which had a huge impact worldwide.

In 1922, insulin was discovered by Canadian scientists Frederick Banting and Charles Best. This invention revolutionized the treatment of diabetes, saving millions of lives and was a major advancement for modern medicine.

Born in 1452, Leonardo da Vinci was a true Renaissance man. He is best known for masterpieces like Mona Lisa and The Last Supper, which have become iconic in the world of art. But his genius didn't stop at painting. Da Vinci was also an engineer, scientist, architect, and inventor, leaving sketches of designs for flying machines, bridges, and even tanks centuries before their time. Leonardo's contributions to both art and science made him one of the most influential figures in history,

Happy
Birthday ,Öykü!

28 April-Irmak

28th of April is an important day for us with it being the birthday of Irmak. There are some other reasons that the 28th of April is a significant day.

April 28 is also the birthday of Harper Lee who is an American writer, best known for her novel *To Kill a Mockingbird*. This work was published in 1960 and was a great success. Lee gained an important place in the literary world with this single book and won the Pulitzer Prize in 1961. *Go Set a Watchman*, published in 2015, is considered a draft of *To Kill a Mockingbird*. Harper Lee is one of the most important writers in American literature.

28th of April is the birthday of Ferruccio Lamborghini who was an Italian businessman and the founder of the Lamborghini brand. Born in 1916, Lamborghini started making tractors at a young age and grew his business successfully. In the 1960s after having a disagreement with Enzo Ferrari, the owner of Ferrari, he decided to make high-performance sports cars. He founded Lamborghini in 1963.

In 1945, Benito Mussolini, the fascist leader of Italy, was caught while trying to escape as World War II came to an end. On April 28th, Mussolini and his girlfriend Clara Petacci were shot by partisans. Their bodies were then displayed in Milan for the public to see. This event marked the end of Mussolini's fascist regime and symbolized the beginning of a new era in post-war Italy.

Happy
Birthday

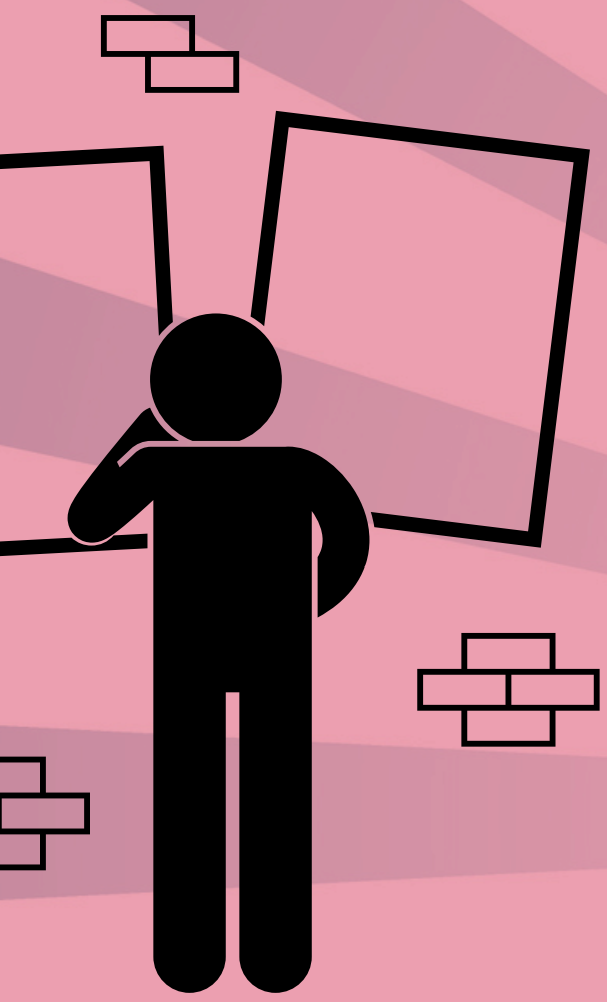

,Irmak!

HOW NOT TO GET BORED

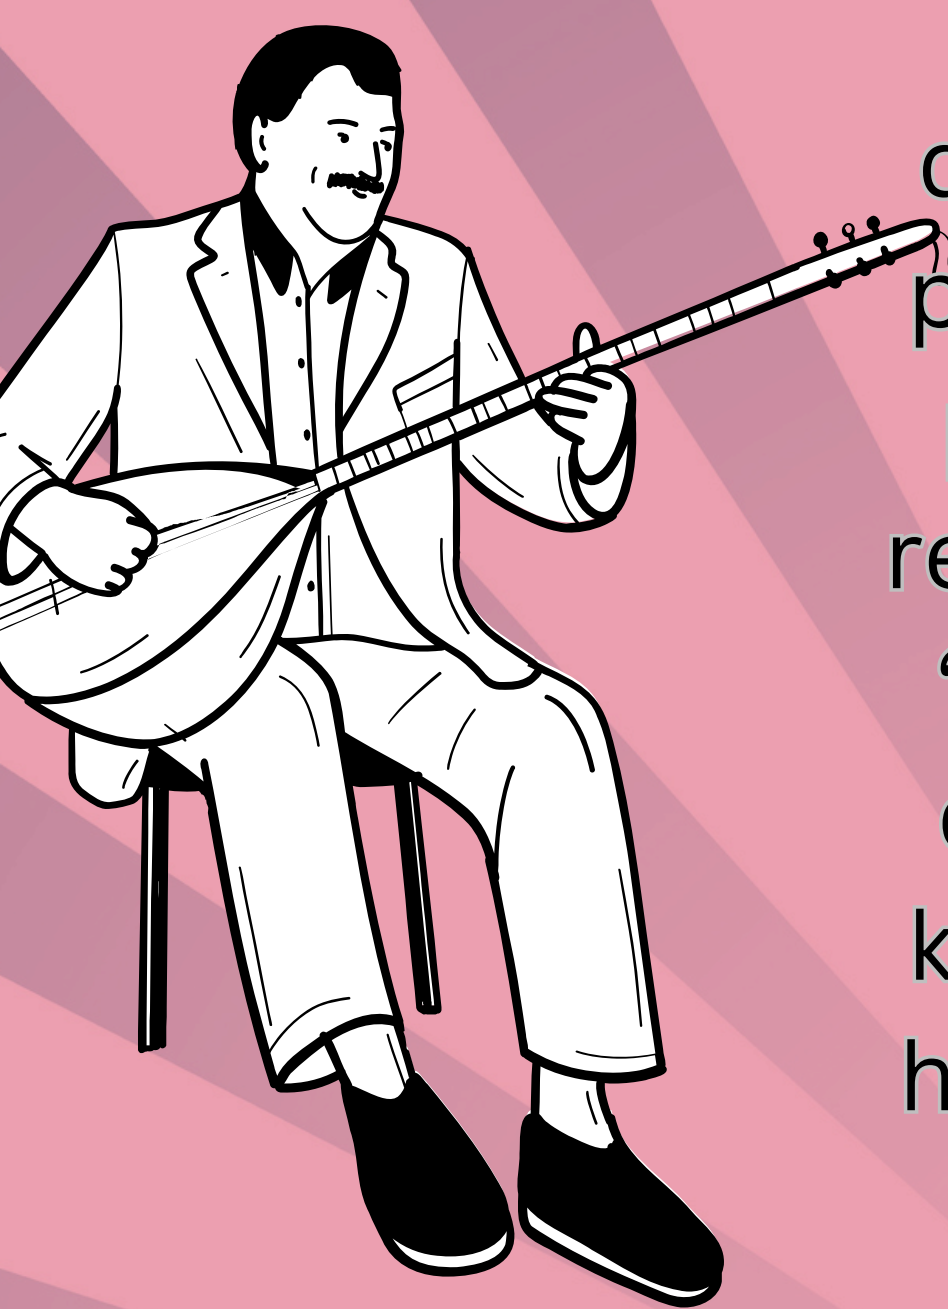

WHEN YOUR PHONE DIES

1-Introduction: It doesn't matter which brand your phone is. The battery drains very quickly. In those times, don't just look through the white wall. The wall doesn't tell you anything. I SWEAR! It doesn't do your homework or practice for your presentation. So remember that life is not just about the Internet or your phone. Stand up and show them your creativity. Here are some tips to not lose your mind because of boredom.

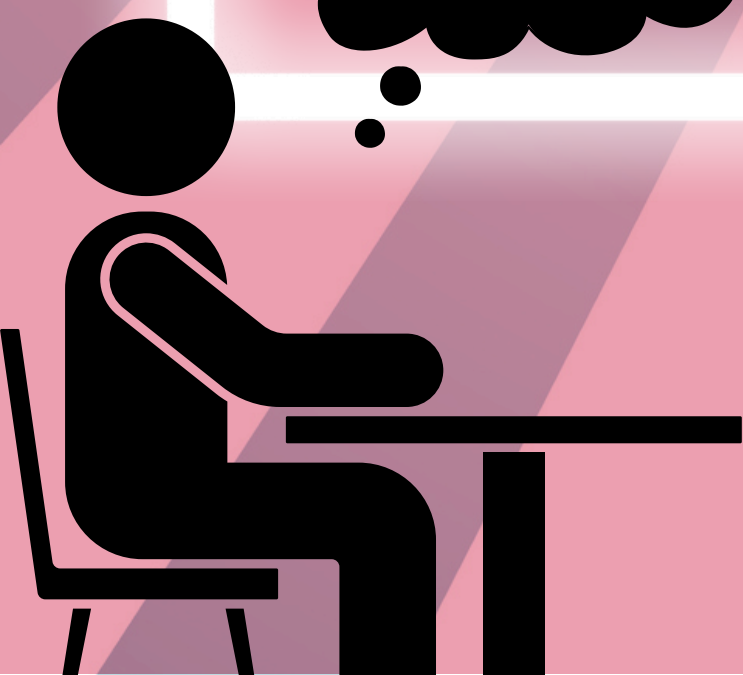

2-Actually talk with your friends: There are 200+ PEOPLE in this school. At least every year group has 60+ people. Go find one of them and socialize a bit. Talk about lessons, school, bazaar permits, and politics (be careful). Their phone may not be dead, but I'm sure they will want to chat with you. I don't have anything else to say. JUST GO AND TALK WITH SOMEONE!

3-Get some hobbies: First of all, if you get that bored without your dear phone, you probably don't have that many hobbies. I mean, you could play some instruments or just grab a pencil and a piece of paper and sketch random stuff. Do you really need your phone that much? You might say, "But I draw from my phone!" Ok, then you could draw on paper as well. You are not in GSP — you know you can still go in GSP, right? You limit your hobbies yourself; you could try stuff, and you will probably like something. So, give one of them a shot.

4-Create imaginary scenarios: We can't lie, we are all delusional here. And what do delusional people like the most? That's right! Imagining stuff that will never come true. There are so many scenarios you could make; the options are limitless. It can even become a whole show with characters that have nothing to do with your actual life. You can even imagine your phone not being dead! Just sit somewhere and let your mind do its thing.

WELCOME TO FLAVOR LAB
WITH ŞEF URAZ:

Easy Mini Éclairs Adventure!

HELLO FLAVOR EXPLORERS!

Today, Chef Uraz is bringing you a sweet and simple French classic Mini Éclairs! They may look fancy, but don't worry—this version is super beginner-friendly. Perfect for a weekend treat or a sweet surprise for friends and family!

Ingredients:

- 1 cup water
- 1/2 cup butter
- 1 cup all-purpose flour
- 3 eggs
- Whipped cream or vanilla pudding (for filing)
- Melted chocolate (for topping)

Instructions:

Let's Make It!

1. Cook the Dough:

In a pot, boil the water and butter together. When it starts bubbling, add the flour. Stir quickly until it forms a ball. Remove from heat and let it cool a little.

2. Add the Eggs:

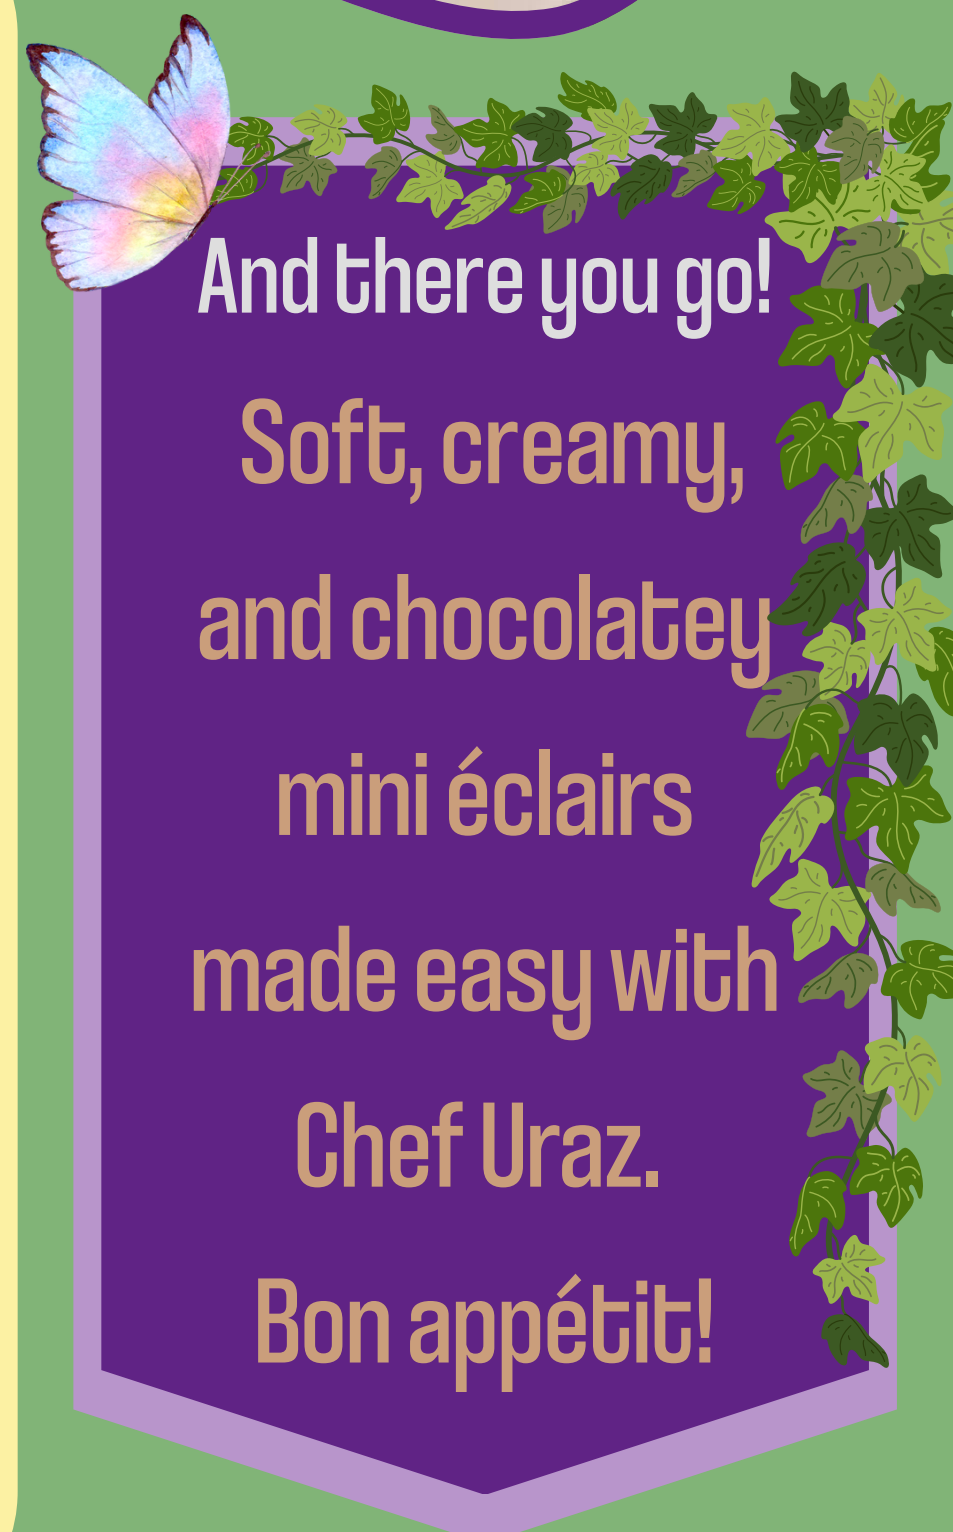

Add one egg at a time, mixing well after each one. The dough should become smooth and sticky.

3. Shape and Bake:

Use a spoon or piping bag to place small éclair shapes onto a baking tray (use baking paper!). Bake at 200°C (390°F) for 20–25 minutes until they puff up and turn golden. Let them cool completely.

4. Fill and Top:

Cut each éclair in half. Fill the center with whipped cream or pudding. Dip the top in melted chocolate for the final touch.

MAGNET GOES TO

The Most Chill '29

Imagine someone who's always calm no matter what's going on.

Deadlines, chaos, drama — nothing ever seems to shake them.

They move through life with effortless ease, a relaxed smile, and a vibe that says, “It's all good.”

Whether they're lounging with friends or cruising through a tough day, they never lose their cool. Now, scan the QR code below and vote for the '29 who best fits this description.

TEVICATS

BIZDIK/CEVİZ

Here comes another young lady! She loves everyone, but it is possible for her to get wild for no reason. She is up and low at the same time just like her twin, Benek. They're identical except a detail in nose.

- Unpredictable
- Energetic
- Wild

MERCİMEK

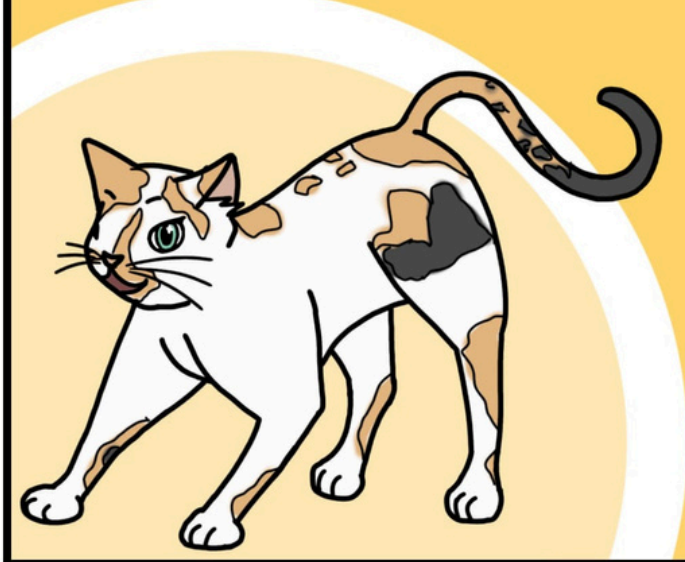

You know her, you love her! Our dear Mercimek! She is always wandering around, demanding food with her bossy attitude. But we respect our elder no matter what, even when she bites and scratches us.

- Glutton
- Grumpy
- Motherhood experience

FERHUNDE

She is the cat hanging around the sickbay. She is always like a bunch of fireworks, running around and playing with others! However, it is not always the right time to be frisky.

- Playful
- Daredevil
- Social butterfly
